Skills

Languages: JavaScript, TypeScript, Python, SQL, C/C++

Frontend: React, Next.js, React Query, Redux Toolkit, Zustand, Tailwind CSS

Backend: Node.js, Express.js, NestJS, REST APIs, GraphQL, Socket.io, SSE

Databases: MongoDB, PostgreSQL/Prisma, SQL

AI: LLM APIs, RAG, AI Agents, Tool Calling, Ollama, AI Workflows

Cloud & DevOps: Docker, Kubernetes, CI/CD, AWS, Linux

Tools: Git, GitHub

Work Experience

Focus IT Services, Islamabad Mar 2025 - Present *Frontend Developer*

- Developed production React/Next.js applications with reusable component architecture, API integrations, state management, and performance optimization.
- Integrated LLM-powered features into web applications, connecting frontend workflows with AI services and backend APIs.
- Improved frontend performance through code splitting, lazy loading, caching, and render optimization.
- JavaScript, TypeScript, ReactJS, Next.js, Tailwind CSS, AI/LLM, Git, CI/CD

Single Solution, Lahore March 2023 - Feb 2025 *MERN Stack Development*

- Developed and optimized scalable full-stack web applications using the MERN stack.
- Optimized application architecture and codebase efficiency, resulting in improved application speed, stability, and overall user experience.
- Worked on AI-powered features and LLM-based workflows to enhance application functionality and automation.
- JavaScript, TypeScript, ReactJS, Node.js, Express.js, MongoDB, REST APIs, GraphQL, Socket.io, AI/LLM, Docker, Git.

SoftRobo, Lahore Sep 2022 - Feb 2023 *Frontend Developer Intern*

- Developed responsive and interactive web interfaces using HTML, CSS, and JavaScript.
- Improved user experience and accessibility across web projects
- HTML, CSS, JavaScript, Tailwind, Bootstrap, ReactJS, Git

Project Work

Multi-Tenant AI Customer Support Platform:

- Developed a scalable AI customer support platform with NestJS, Next.js, Prisma, and Ollama. Implemented AI-powered chat, tool-based orchestration, automated order/return handling, human-agent handoff, real-time agent dashboard using SSE and React Query, and an embeddable ES5 chat widget with tenant-specific branding. Technologies: **NestJS, Next.js, Prisma, Ollama, React Query, SSE, AI/LLM, Docker.**

Human Resource Management System:

- Developed a web-based HR management platform for employee records, attendance, leave management, payroll, and administrative workflows. Implemented role-based access, employee management, reporting, and responsive dashboards. Technologies: **ReactJS, Node.js, Express.js, MongoDB, REST APIs, JavaScript.**

UndrRight — AI-Powered Legal Assistant:

- Developed an AI-powered web application for legal professionals with modern responsive interfaces and intelligent legal workflows. Implemented advanced animations, centralized state management, and scalable frontend/backend architecture. Technologies: **Node.js, Express.js, MongoDB, ReactJS, Tailwind CSS, Framer Motion, Redux Toolkit.**

Education

Minhaj University Lahore 2017 - 2021 B.S. in Software Engineering Relevant Coursework: Object-Oriented Programming, Data Structures & Algorithms, Database Systems, Software Engineering, Web Development, Operating Systems, Computer Networks, Artificial Intelligence

Awards and Certificates

- **Full-Stack Web Development Bootcamp:** Udemy certificate of completion — completed, 2022.
- **Mastering Data Structures & Algorithms C/C++:** Udemy certificate of completion — completed, 2021.
